

Spray booth ceiling filter V600

The V600 filter offers superior filtration for paint stops, effectively capturing fine dust and airborne particles to ensure a clean, high-quality finish. Its robust design supports optimal airflow and long-lasting performance, providing a contaminant-free environment for professional painting applications.

Standard dimensions

roll 1x20 m

roll 2x20 m

Special width and length on demand.

TECHNICAL INFO

Classification (EN ISO 16890)	ePM10 55%
Classification (EN 779)	M5
Fiber composition	100% PET fibres reinforced with PET scrim
Bonding	Thermally
Nominal thickness	22 mm
Surface weight approx.	580 g/m ²
Airpermeability	1170 l/m ² s
Fire class	F1
Treatment	Progressive Binder

The information is given in good faith, but Filter Plus cannot guarantee its accuracy or completeness. This is not a specification; properties are typical values, and thickness may vary after packaging, storage, or transport.
